THE Bridal LOOK: beachy chic

1. perfect skin

Step One: Prep the skin with *One Essential* which detoxifies the skin and enhances the skincare benefits of your current skincare regimen by up to 400%. Follow with *Hydra Life Serum*, *Sorbet Crème*, and *Eye Crème* and apply *Dior Skin Nude Foundation* with a *Foundation Brush* to the entire face to even the complexion. To cover discoloration or darkness under the eyes, apply *Dior Skin Nude Concealer* with a *Concealer Brush*. To set the look and reduce shine apply *Dior Skin Nude Powder*.

To create a dewy look perfect for the beach, mix *Skinflash* in shade 001 with the lighter shades of *Dior Skin Shimmer Star* in Amber Diamond with a *Powder Brush* and apply to the eye contour. For an extra touch of color, apply the pink shade of *Harmonie Blush* in shade 001 to the apples of the cheeks.

2. natural eyes

Step Two: To create a natural yet polished look, prime the lid with *Skinflash* in shade 001. Priming is essential for wedding day makeup because it helps hold the shadow for the entire day. Then apply *Dior 5 Colour Eyeshadow* in Incognito. Apply the beige shade (top left of the palette) by pressing the shadow softly onto the lid with small yet firm strokes. To open and brighten the eye, apply the pink shade (middle of the palette) to the corner of the eye. To add a touch of romance, mix the brown and grey shades (bottom right and left of the palette) and blended them into the crease. To highlight the eye, apply the shimmering white shade (top right of the palette) directly under the brows for a hint of shimmer that photographs beautifully. To naturally fill in the brows, apply *Diorshow Browstyler* in Universal Brown with short, soft strokes.

Step Two, continued... To add a bit of intensity, softly outline the lashes with *Dior Waterproof Eyeliner* in Intense Brown. Be sure to keep the liner close to the lash line and apply softly in between the lashes. Smudge the bottom liner with your ring finger to soften the look. For the finishing touch, apply *Diorshow Lash Maximizer* as a primer which also thickens and lengthens the lashes and then two coats of award winning *Diorshow Waterproof Mascara* in Chestnut.

3. kissable lips

Step Three: For a picture perfect smile, line your lips with *Dior Lip Liner* in Caramel For staying power, use the liner to shade your lips but leave the middle untouched. Leaving the middle open creates a full lip effect.

Then use a sponge eyeshadow applicator to press *Dior Addict Lipstick* in Baby Rose #561 into the lips. This technique helps with staying power and keeps color on the lips through an entire night of kisses and sips. To finish, apply *Dior Addict Ultra Gloss* in Pink Trench #257 to the center of the lips and blot slightly.
